

Mark Brown and Susan Boss

Mark Brown and Susan Boss make fun, one-of-a-kind mixed media sculptures and clocks. Each of the pieces are unique and engaging characters with their own identity and style. Most of the components are found at tag sales and flea markets. In the endless stream of metal containers and jar lids lie a wonderful array of colors, textures and forms. Mark and Susan bring their creative energy to this mix of found, recycled and discarded objects. It is the artists' thinking that acknowledges the value of the materials and transforms them into something beautiful.
